MARRIAGES FAR AND NEAR

FORMER CITIZEN MARRIED TO PROMINENT WAYNESBORO MAN

Daughter Serves as Maid of Honor at Father's Wedding—Tried to Catch Couple With a Rope.

Welty—Myers.

Hon. B. F. Welty, proprietor of Linden Mills and Linden Distillery, one mile south of Waynesboro, Pa., was married Nov. 14 to Mrs. Mary A. Myers, of York Road, Carroll Co., Md. The ceremony took place at half past one o'clock, p. m., and was performed by Rev. Ezra M. Seneseny, a brother-in-law of Mr. Welty, in the presence of a number of near relatives of the contracting parties, including Miss Elsie and Mr. John Welty of Linden Mills, daughter and son of groom, and Mrs. Otelia Heretor of Gettysburg, sister of the bride. Mr. Welty served his Co. in two sessions of the Legislature, in each of which he labored zealously for the interests of his constituents. He is one of the prominent business men of the community and a director in the Peoples National Bank and Landis Machine Co. Mrs. Welty is widely known in this section, being the daughter of the late Rev. Jos. Sherry who was owner of the historic Sherry peach orchard. After the honeymoon Mr. and Mrs. Welty will go to house-keeping in Mr. Welty's palatial residence on the banks of the pearly Antietam, where in due time they will be at home to their wide circle of friends.

INTERESTING CIVIL CASE

SO MUCH OF FORFEIT KEPT TO MAKE GOOD LOSS ON RESALE

Criminal Cases—End of Work of Grand Jury—Prisoners Sentenced—Court Ends.

The most interesting civil case tried at the November court was the last of the four cases of the list of twelve mentioned last week as undisposed of. It was case of A. M. Kalbach and D. P. Hostetter vs. Horace F. Smith, Adm'r. d. b. n. c. t. a. of Emanuel Smith, dec'd. Trial began on Thursday morning, jury went out Friday evening and did not agree to a verdict until 9 o'clock at night and sealed verdict was opened Saturday morning. The plaintiffs had contracted to purchase farm of Emanuel Smith, deceased, for about \$12,000. When deed was ready for delivery April 1, 1904, plaintiffs objected to taking title saying an old agreement mentioned in a deed of 1855 put a cloud on title. The purchaser paid the hand money about \$1800 and one of the questions for determination of jury was whether this hand money was paid voluntarily or upon understanding that as soon as cloud on title was removed they would take farm. The defendant administrator testified to a conversation with Hostetter in which he was told they would not take land, which Hostetter denied, and when administrator had had cloud on title removed by court proceedings he offered land at public sale and it was knocked down to A. C. Givier at over \$10,000, about \$1300 less than Kalbach and Hostetter agreed to pay for place. The latter then sued for the hand money \$1800 paid. The verdict of jury was in favor of plaintiffs for \$548.03, the amount over and above what was needed to make estate whole on loss on second sale. W. C. Sheely and Wm. McSherry Esqs. represented plaintiffs and at once moved for a new trial. C. S. Duncan and J. L. Butt Esqs. represented defendant.

Smith—Hankey.

On Nov. 6th at Pittsburg, Pearson C. Smith, formerly of Reading township and a prosperous young business man of Allegheny City, senior member of firm of P. C. Smith & Bro., cigar box manufacturers, and Miss Mary Hankey of Pittsburg were married.

Bishop—Hess.

On November 14 at the Lutheran parsonage in Bendersville by Rev. S. A. Diehl, John F. Bishop of Bendersville and Miss Rosa A. Hess of Table Rock.

Johnson—Wampler.

James Johnson of near York Springs and Miss Ellen Wampler of near Huttertown were married on last Wednesday evening by Rev. H. W. Bender of New Chester. There was an attempt to catch the young couple later by placing a rope across the road. The bride jumped from buggy and ran back to the parsonage and with the help of the minister the fun makers were routed.

Collins—Stavelly.

Nov. 8 at Two Taverns by Rev. C. P. Bastian, Emory B. Collins and Miss Sara E. Stavelly, both of Mountjoy township.

Bramer—Baldwin.

Nov. 15 at Arendtsville by Rev. David T. Koser, Mervin A. Bramer and Annie J. Baldwin, both of Menallen township.

Slaybaugh—Pank.

Dennis A. Slaybaugh of Guernsey, this county and Miss Levantia Pank, daughter of Mr. and Mrs. Pank of Sidney, New York, were married Nov. 11, at the home of the bride. The ceremony was performed by Rev. C. Callender, pastor of M. E. church and witnessed by the family and a few friends. After the ceremony lunch was served and young couple went on a short wedding trip to Little Falls, N. Y. The groom is the son of the late Mrs. Emma Slaybaugh of Guernsey and brother of David S. and Luther B. Slaybaugh of same place.

Hersh—Dempsey.

On November 20 at Philadelphia by Rev. Wm. B. Bodine, D. D., William Metellan Hersh, son of Frank Hersh of Baltimore and Clara Lee Dempsey, were married. Groom is a nephew of Capt. James Hersh of this place.

Hutchins—Garvin.

In Baltimore this week, Captain Walter Hutchins of Hagerstown, Md., and Miss Lizzie C. Garvin of this place. Latter recently secured divorce from former husband, Oscar Jones, in the court of this county.

Turkeys Galore.

The bird with which the National Thanksgiving dinner is largely celebrated is not scarce this year. It is said the country is full of turkeys, like the small boy will be when that Thanksgiving dinner is over. The market however is a little uncertain. At the opening of the present season the price was 15 cents and has stood at that. There are expectations either that a large supply will break the price and force it down or that something will happen to send it up. The dealers are looking for the former and the farmers are hoping for the latter. There are good flocks of turkeys all over the county and flocks of from 100 to 150 have been heard of. Few have as yet been brought to town. There seems to be a waiting to see what the market will go to. By Saturday it will be known whether the price will be broken or come up or remain at present figure and then town dealers will have all the turkeys they can handle.

with neglecting and refusing to pay board bill on oath of Louisa Noel was found a true bill but indictment was quashed because neither it or the information alleged any false pretenses or absconding as act requires.

Com. vs. E. J. Treiber, charged on oath of C. F. Allen with larceny of a dog was found not a true bill and defendant discharged.

Com. vs. Michael Gilroy, fornication and bastardy on oath of Mary Lesser was found a true bill and defendant plead guilty.

Com. vs. Chas. Troxell, charged with sale of adulterated food on oath of M. K. Eby, was found a true bill, defendant plead guilty and sentence was suspended.

Com. vs. A. G. Parry, charged with forgery and false pretense, on oath of Wm. Barkdoll were found true bills and defendant plead guilty.

Inquest on Emma and Christian Miller was held and both were found lunatics. Jerry Miller was appointed committee of both, bond for each in \$1,000.

Subpoena in divorce was awarded in case of Martha Catherine Cook vs. Levi Cook.

Prisoners Sentenced.

The prisoners were sentenced Saturday afternoon as follows:

Charles Riggs, who plead guilty to an assault on Upright Jackson when head was bandaged and he was excited over a previous disturbance, was warned by court of his one failing, for otherwise he was a good and industrious citizen, and was sentenced to pay the costs and give a bond in \$300 to keep the peace for two years toward Upright Jackson and all other citizens.

Reuben Small, 14 years old, who plead guilty to larceny from home of Mrs. Wildasin at McSherrystown was told by the court that he was a handsome bright boy, but reputed to be a bad boy. On his promise to be good, to obey his mother, go to school and behave, sentence was suspended, with warning that if Associate Judge Smith heard any complaints he would be arrested and sent to House of Correction.

Thomas and Wm. Small, plead guilty to same offence. Reuben had robbed house of 37 checks worth 21 1/2 cents a piece and 11 cents while they watched outside. They were told that they were equally as guilty as Reuben, upon account of their good repute and their youth, 17 years, and their first offense and having promised to be good, sentence was suspended upon payment of costs by December 4, and returning to Mrs. Wildasin the value of property stolen.

Archie Clay who did not dispute the charge of shooting at another Sam Woodward, was next matter heard. Two witnesses, James Rogers and Charles Sheely, testified that when Woodward was running away Clay told and then on his knees fired, while Harry Clay testified that gun went off as he felt. This was second shot following one from yard which hit Woodward in cheek and body. The Court recalled circumstances favorable to defendant and upon promise to behave and pay costs he was sentenced to give bail in \$300 to keep peace for one year to Sam Woodward and all other citizens.

Sam Woodward was told that his department in following Clay was aggravating. He had been in jail two months and was sentenced to two more months and the costs and in surety of peace cases of Clara and Archie Clay was directed to give security in \$200 to keep peace for one year.

Ed. Smith, colored, plead guilty to knocking down C. W. Gorley, employee at Washington Hotel restaurant, with a stone as big as a man's fist. The testimony heard showed that the attack was unprovoked. Defendant had been in jail over two months and was sentenced to three months more, \$1 and costs.

Theodore Hawkins, who had struck Geo. B. Slonaker once when latter tried to get some tourists away from him and who is an old soldier and is suffering with cancer, which physicians said cold and dampness of jail would make worse, was sentenced to pay the costs.

A. G. Parry, who plead guilty to forgery of \$15 check which Wm. Barkdoll of Globe Hotel cashed and to false pretense, told his story well. Seven years ago he was ill and was prescribed morphine, and he had deteriorated until he was a wreck, he wanted to get rid of habit, he would take confinement of at least six months. He would be mentally better off to be employed in penitentiary than in jail. The Court sentenced him to 7 months in jail, \$1 fine and the costs.

Michael Gilroy, who had been in jail three months awaiting trial for fornication and bastardy and who plead guilty and wanted to marry the girl, but who did not want him, was discharged as he had been in jail usual time.

Jacob Stock, found guilty of assault and battery on Max Davis was sentenced to pay costs of prosecution.

Com. vs. Geo. Silik was a desertion case brought by his wife, Mrs. Ida Silik. When called Saturday defendant was not present. It was represented that he had promised to pay his wife for herself and two children \$4 a week

and go to housekeeping again April 1. His bond was forfeited, to be respited Jan. 21 if he appeared, paid costs and could show he had provided for wife.

Com. vs. Maud Vaughn, brought into Court on process on a f. and b. case, same was marked settled and costs paid.

A Celebrated Case.

A very large audience thoroughly enjoyed "A Celebrated Case" given by local talent last Friday evening in Navien Hall. The drama consisted of a prologue in two parts and four acts. Miss Edna Ziegler was very effective in the heroine parts. Miss Helen Pfeffer in the child part was excellent and greatly pleased the audience. Misses Anne Hollabaugh, Nina Thorn, Grace Sachs and Bessie Yount gave a good account of themselves. John J. Garvin as Colonel and Duke was well played, as also the part of H. O. Himes, soldier and falsely accused convict, Mark Eckert villain, G. G. Parker Irish sergeant and Emor Rice lover. Other parts were taken by P. R. Bickle, J. Zinn, Norman Bumbaugh, Harvey Welty, Raymond Dittfield, Chas. Sheely, Ralph Wiernan, Jesse Sharretts, and J. Howard Buck, D. W. Bower and Eli Lau college students and Misses Viola Garlach, Mable Thorn, Helen Rupp, Esther Speece, Ruth Wilson and Catherine Sachs. The costumes exceeded anything ever shown locally. The College Orchestra furnished the music, which proved to be a taking feature. The whole company is entitled to much praise for a creditable show, the net proceeds of which will go to the Women's Civic Club for the benefit of the town amounting to about \$12.

Fire Prevented.

The smoke house on farm of I. H. T. Rummel on Bonneville road escaped destruction by fire on last Saturday by the fortunate discovery of the danger before fire was under headway. Mr. and Mrs. Rummel were in town. Miss Flora Deatrich and Earl Deatrich, son of Luther Deatrich of this place discovered the fire and with help succeeded in putting it out. The smoke house is very close to dwelling and a fire that might have proven very destructive was averted.

Teachers' Institute, Tuesday.

Mr. Comerford concluded with a thrilling reading of "The Old Volunteer Crew," Simms' great poem, which was also appropriately and beautifully illustrated; and that there was use for handkerchiefs at the end was to the credit of those who listened. The act is a novelty and made a great hit. "Boston Herald."

Two Bridges Approved.

Two bridges were approved by the Grand Jury last week, one over Wiltoughby's Run on Mill road west of town, a short distance below the old Spring's Dam. The other was the condemned bridge over Little Conowago on the York pike. The bridges have not yet been entered as county bridges to be built some day because they were not brought before Judges for approval.

An Arm Torn Off.

Parker Gardner, son of John A. Gardner living near York Springs, was in the act of feeding a fodder machine one day last week, when his hand caught in the revolving wheels and cutters and the arm was drawn into machine, mangle it so horribly that it had to be amputated.

A QUEER CHANDELIER.

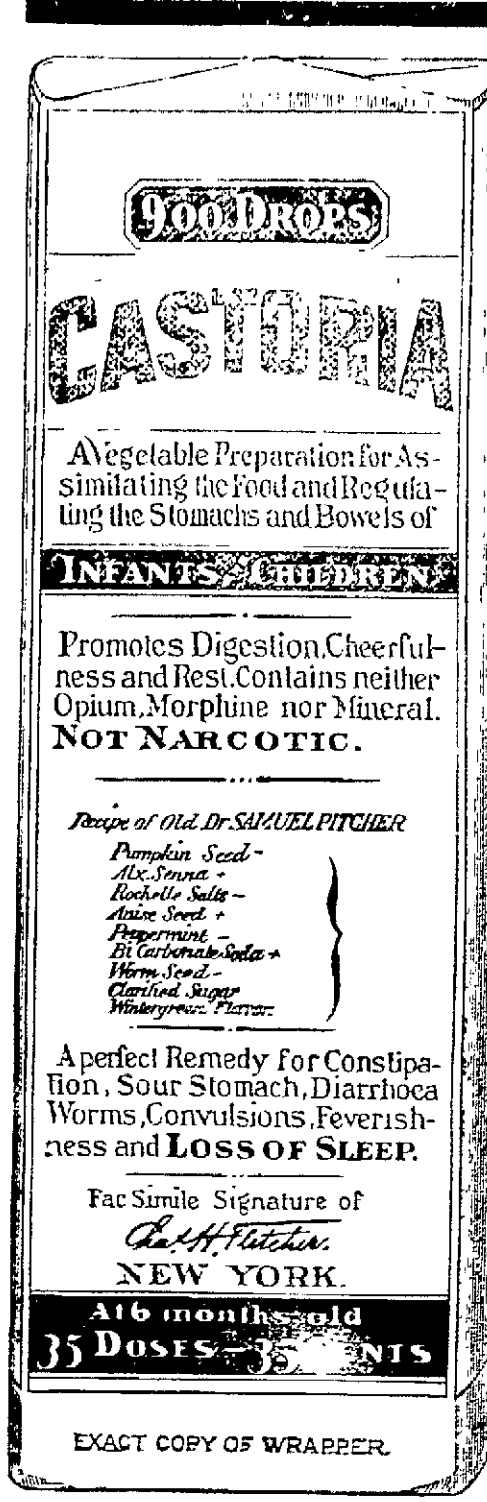

It is Made of Human Bones and Hangs in a Church.

In the center of the arched roof of All Saints' church, Sedlitz, in Prussia, hangs a chandelier consisting entirely of human bones. The church in which this remarkable object is suspended is decorated from the floor to the ceiling with the bleached bones of human bodies. Gallants of bones stretch across the ways and hang from the ceiling. Pyramids, topped with human crowns, are artistically reared from the ground with the whitened remains of the dead. The altars are literally covered with skulls, among which are hundreds of those which had been pierced by bullets or crushed by murderous blows from swords and other weapons, denoting that these grim relics of humanity have been gathered from adjacent battlefields.

Tradition says that these piles of human bones were gathered by a blind friar of the Cistercian order, who stored them in a corner of the church. As they were fast changing into their original elements, a man named Rint devoted himself to the task of cleaning and arranging them in the church. Prince Carl of Schwarzenberg took a strong personal interest in the restoration and arrangement of the church and ordered all the repairs to be done at his own expense. A large number of tourists visit this extraordinary church every year.—London Tit-Bits.

Reynolds and Two Pictures.
Sir Joshua Reynolds having become a great man, it was but natural that the town council of Plympton, near Plymouth, where he was born, should elect him mayor. In acknowledgment of the honor he painted a fine portrait of himself and presented it to the corporation. He wrote to a friend asking him to see that the picture was hung in a good light. This friend not only did so, but hung a poor picture alongside of it in order to heighten the merits of Sir Joshua's work by contrast. Then he informed Reynolds of all the trouble he had taken. In thanking him Sir Joshua told him that the poor picture had been painted by himself (Reynolds) in early life.

The Hopelessness of Gout.
A quaint old cure for the gout—a cure, from a seventeenth century medical work, that was designed to show gout's hopelessness. "First pick," said this odd cure, "a handkerchief from the pocket of a splinter who never wished to wed; second, wash the handkerchief in an honest miller's pond; third, dry it on the hedge of a person who never was covetous; fourth, send it to the shop of a physician who never killed a patient; fifth, mark it with a lawyer's ink who never cheated a client, and, sixth, apply it, hot, to the gout tormented part. A speedy cure must follow."

INCREASED TRAIN SERVICE ON READING R. R. TO GETTYSBURG

Some Results of Intensive Farming, When an Ear of Corn is Good it Has Even Numbers.

The operating and passenger transportation officers of the Reading Railway held a long conference last week to arrange for a change of schedule to go into effect Dec. 2. It was determined at this meeting because of increased traffic on the Gettysburg branch two additional trains will be put in service. This is a recognition to which Gettysburg is justly entitled. The freight traffic on the Reading is large the whole year round and constantly growing, extra freight trains being an almost daily occurrence. The regular passenger traffic has not only been a growing item but the excursion season of the present year has been good. Gettysburg has been entitled to something better than either get up before daylight to take a train or wait until dinner has been eaten. Gettysburg ought to have a through parlor car service out once a day to Philadelphia and returning once a day.

Wm. Kesser of East Berlin has studied ears of corn and as a result states that all perfect ears have even numbers of rows, but that freaks or imperfect ears will have uneven numbers. Where rows start at the butt end of an ear and extend only to about middle of ear and are there lost uneven numbers will usually appear but in the perfect and fully developed ears even numbers prevail.

C. T. Myers has been trying some intensive farming on his 10 acres of land below Abbotstown. From one acre he thrashed 54 bushels of oats and from less than 10 acres he raised 1600 bushels of good corn.

Laugh and Grow Fat.

A physician is responsible for the following: If it were generally understood how salutary the act of laughing is to the bodily health, there would be more laughter than lamentation in the world, and farcical comedies prove more attractive to the invalid than physicians. The old adage, "Laugh and grow fat," is founded on a sound physiological basis. It is commonly observed that fat men laugh with considerable facility. But they do not laugh because they are fat. They are fat because they laugh, the act of exhalation having a profound influence in promoting appetite, oxidation of the blood, digestion—indeed, the entire and complex process of nutrition. Good nourishment produces the contented body, the fit temple of the contented mind, which is, we know on excellent authority, a perpetual feast.

The immediate physical results of indulgence in laughter are numerous. In the first place the act of laughing involves the exercise of a large number of muscles, including many of those of the face, neck, chest and abdomen, which, if they are exercised sufficiently often become correspondingly well developed, as do also all those glands, blood vessels, nerves and other tissues in intimate connection with them. The facial muscles, for example, of the man who laughs often and easily are generally developed to a degree which gives him the facial rotundity of a contented child. But laughter accomplishes much more than the production of this mere outward appearance of well-being. It has a highly beneficial influence on those two vital organs, the heart and the lungs.

During what is called a "fit" of laughter the lungs may be completely emptied of their contained air. Fresh air is then drawn in to the fullest extent of their capacity, inflating perhaps those little-used air cells which contained previously only stagnated air and bacilli—for in the shallow breathing we ordinarily practice comparatively large tracts of air cells are not used. During this process the general circulation is accelerated, impure air is hurried out of the system, and fresh air hurried in. With the forcible ascent and descent of the diaphragm during inspiration and expiration the liver and other abdominal organs undergo a kind of kneading not unlike that undergone during massage and this is of great benefit in rousing them from that torpor to which they are liable. The heart is also stimulated to more vigorous contraction during the active cachinnatory process. Persons who, so to speak, let themselves go and laugh with a will sometimes bring almost all principle muscles of their body into play, twisting, turning and bending themselves almost double in sheer muscular exhilaration.

No matter how long you have had the cough; if it hasn't already developed into consumption, Dr. Wood's Norway Pine Syrup will cure it. The Kehm brothers of East Berlin killed 44 rabbits in one day's hunting. Do not be deceived by counterfeits when you buy Witch Hazel Salve. The name of E. C. DeWitt & Co. is on every box of the genuine. Piles in their worst form will soon pass away if you will apply DeWitt's Witch Hazel Salve night and morning. Best for Cuts, Burns, Boils, Tetter, Eczema, etc. Sold by L. M. Buehler.

Many houses are invariably built on posts, so as to raise the floor from four to six feet above the ground. The floor is made of planks, with interspaces between slats, the earth beneath becoming the receptacle of the drainage of the establishment. The universal plan of the well to do natives is to build the house in two divisions, the front one for receiving visitors and domestic generally, while the rear portion is reserved for the women and children.

Do It To-day. The time-worn in junction, "Never put off 'til to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day." That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day and let that remedy be Dr. Boscchee's German Syrup, which has been in use for over 55 years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.

NO POISON IN CHAMBERLAIN'S COUGH REMEDY.—From Nepier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by J. H. Huber.

Gettysburg, Pa., Wednesday, Nov. 22/1905

SAY, is Littlestown in size the second town in county. The election figures of recent years analyzed on 2nd page would seem to say so.

NEW OXFORD makes enough shoes every two weeks to cover the feet of all the school children of Adams county. A brief story of this industry will be found on page 5.

THE SCOT'S immortal speech is one of the greatest literary gems ever penned by an American and Gettysburg was the theme that gave it birth. The story of the only visit of Lincoln to Gettysburg is retold on page 2.

THE "STAR" grows excited in saying that the COMPILER charge! Republican county administration with extravagance. We did not use latter word or say that county did not get value for dollars spent representing them. The "Star" should take the issue of COMPILER of Nov. 1 and calmly read our statement, namely, that the county is in debt \$5,000, because expenses were not kept within income and the absolute proof of this is the admitted debt.

TO SUBSCRIBERS OF JEFFERSONIAN.

The COMPILER has bought the subscription list and good will of "The Jeffersonian" of Littlestown. All subscribers of "The Jeffersonian" will receive the COMPILER, beginning with this issue, and all subscriptions in arrears from now on and as they expire will be at the regular price of the COMPILER. Last issue of "The Jeffersonian" was on Nov. 11.

By reason of recent illness of Mrs. Mayers, owner of "The Jeffersonian," and the acceptance of a position on the "North American" of Philadelphia by its editor, Hugh C. Hinkle, it was reluctantly decided to sell the subscription list to the COMPILER. The former owner and editor of "The Jeffersonian" desire to express their sincere thanks to their subscribers and patrons for the support given them through the more than seven years "The Jeffersonian" was published and ask that the same support be now given to the COMPILER.

The subscribers of "The Jeffersonian" will receive in weekly visits of the COMPILER an eight page paper packed with county news. Its list of correspondents throughout county number about 25. The COMPILER is being printed today on the best paper ever used in county for newspaper purposes. Its court news is admitted to be the most complete published. Every week an original short story is given, and a piece of music, some of which have been declared to be gems. The COMPILER has printed many pictures of county scenes in recent issues and has many more which will be given. They are pictures Adams county people are enjoying and preserving. Our aim is the best for COMPILER readers.

In making the purchase of this subscription list the COMPILER trusts to receive the same support and good will given for many years to "The Jeffersonian" so that we may be permitted to enjoy the benefits of our purchase.

AN AWFUL SKIN DISEASE

Sores Covered Neck and Cheeks—Itched Day and Night—Nothing Did Me Any Good—Was Growing Worse.

CURED BY CUTICURA AT COST OF \$4.50

Miss Nellie Vander Wiele, of Lakeside, N. Y., writing under date of April 18, 1904, says: "I do wish you would publish this letter in the newspapers, so that others suffering as I have may see it and be helped. I suffered for many months with an awful skin disease, sores covering my ears, neck, and cheeks. Scabs would form and they would swell, and itch day and night. Then they would break open and blood and matter run out. I had tried many different remedies, but none of them did me any good. I was growing worse when I tried the Cuticura Remedies. The first application helped me, and when I had used two cakes of Cuticura Soap, three boxes of Cuticura Ointment, and three bottles of Cuticura Resolvent, I was completely cured."

1000 PAIRS OF SHOES A DAY

OUTPUT OF TWO PLANTS IN CO. EXCEED ABOVE AMOUNT.

New Oxford Shoe Industries Employ 90 Persons and are Developing That Town.

The development of two shoe plants in New Oxford has in a few years time wrought many changes in that quiet town. There was a time when that town offered little regular work-day in and day out, year in and year out. But all this is changed with two shoe plants, each employing 45 persons with a growing demand for more. This condition has stimulated other industries and has given New Oxford a wholesome and substantial growth.

The demand for labor has brought help from the country and other town and the erection of residences has not kept pace with the increase of population. Houses are rented before their construction are begun. Many houses are added each year to the town. If there is one demand more frequently given expression to in the town, it seems to be for a dwelling house.

A recent visit to the shoe factory of Wm. H. Emmert, about 7 years old, and of E. C. Livingston, about 4 years old, was an eye opener, not only to the interesting and instructive process of the making of shoes, but also to the development of the business.

The output of the factories is children's shoes. No shoes for grown people will be found there in the making, all children's shoes, of all sizes, and of perhaps fifty or more styles, and finished with the best and most improved machinery for the making of them.

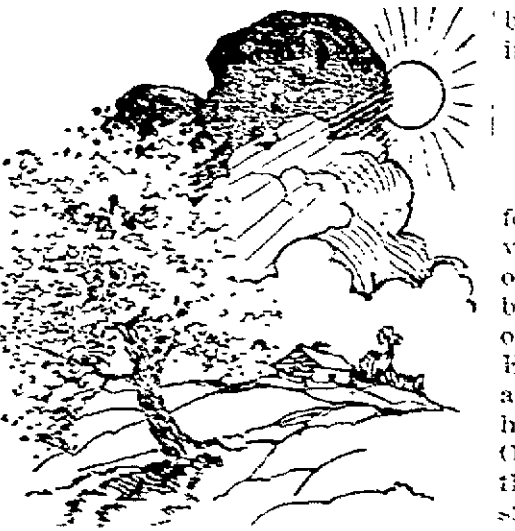

It was only in 1899 the Emmert factory took shape. Before that time Jacob Heltzel conducted a factory but the output was of a hand made article and the market for the machine made shoe is entirely different from the one for the hand made article. Mr. Emmert met a young man who had been a cutter in a shoe factory but was then out of work and working on a farm. He talked with this young man as to what would be needed to start a small factory. A few hundred dollars was invested and the young man put in charge of plant, the output being hand made shoes. Mr. Emmert saw the money was in the machine shoe and he soon began to add machinery until today the plant means an investment of \$50,000.

E. C. Livingston started his factory about four years ago, from the start making the machine made shoe and has kept adding to and developing his factory until today he has a plant in which over \$30,000 is invested. Both factories are of brick and near the depot the Emmert of one story and basement on the right hand side of railroad going from New Oxford to Gettysburg, and the Livingston, two-story and basement, on the left hand side.

The making of shoes begins with the making of pattern shoes, at least twice a year, and orders are received from these. Neither factory makes a stock ahead on the probabilities of the market, but orders for the winter goods pile in months ahead of time needed for them as likewise with the summer goods. Shoes made have been ordered and are usually in case lots of 36 pair or 72 shoes.

The first department is that of the cutters, where there are patterns for all the various pieces of a child's shoes in the various sizes and a cutter will place pattern on leather or lining and with a quick stroke of his knife has cut out same.

A case lot of these cuttings go tied up to the sewing department, solely run by women. Each has a special part to do or machine to attend. The leather and lining is stitched quickly

Dr. Pierce's Favorite Prescription is what does it all. It's a wonder worker for women because it is Nature's remedy, adapted to the needs of twentieth century women.

No alcohol, no narcotic, no injurious drug. Made of glyceric extracts from roots, therefore their virtues grew in them in Nature's laboratory, viz: Lady's Slipper root, Black Cohosh root, Licorice root, Blue Cohosh root, and Golden Seal root, extracted, combined, preserved without alcohol, by Dr. Pierce's own peculiar process, and in the most exact proportions to secure the best effects.

If in need of careful, competent advice before beginning treatment, you will receive it without charge by writing, and stating your case, to Dr. R. V. Pierce, 623 Main Street, Buffalo, N. Y. All letters confidentially received and answers sent in securely sealed envelopes.

"I was a great sufferer for six years," writes Mrs. Geo. Soden, of 44 Bond Street, Saginaw, Mich. "I commenced to take your Favorite Prescription and have taken ten bottles in all. Am now regular after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I can thank you for my recovery."

Dr. Pierce's Pleasant Pellets cure constipation. One little Pellet is a gentle laxative, and two little cathartic.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture is the form of a label on the wrapper of every bottle of Emulsion you buy.

together until upper part of shoe is finished and goes to machine that works button holes and the next one putting on buttons.

In another department the soles have been cut out of leather by machinery. Here men receiving the uppers from sewing department are stretching them over lasts and quickly fastening same temporarily to soles. They are then ready for a big noisy, wonderful piece of machinery which stitches upper to sole.

The shoe so far has been made up wrong side out. It is quickly reversed and goes to a machine which puts a heel on, then on to where sole and heel are finished, finishing touches put on upper and sole, and on to where various kinds of tips are finished on the shoe, and on to where they are boxed and packed.

One little shoe may have passed through thirty or more hands before it is finished, but the work is done so quickly and systematically that when the day is done the average output for each plant is 500 pairs. This number is often exceeded. Mr. Livingston said the day before visit was made his plant had turned out 738 pairs, the largest number ever made in his plant in a day.

These plants have been going steadily since started. There are few holidays for the orders keep them busy all the year round. Occasionally a shut down of a day or two will occur to overhaul some of the machinery, but the industry has meant to New Oxford full time work for nearly every working day in the year. That fact not only means much to the town but demonstrates that these plants have been very successful manufacturing industries.

War With Clouds.

Appleton's "Booklover's Magazine" for November contains a number of very interesting and illustrated articles one being "At War With the Clouds," by Wm. G. Fitzgerald. The great foe of the vineyards of the highlands of Europe has been the hail storm. Year after year this crop was destroyed by hail until the vine growers faced ruin. One Herr Stager observed that before the storm broke the air was strangely still for several seconds, for minutes even. This stillness he argued must be most important for the formation of hail and if it could only be broken up by the hail storm might be escaped.

He mounted a small mortar and before the stillness of a heavy thunderstorm July 4, 1896, he bombarded the sky. Out of the range of the concussion hail fell, but over the fields and vineyards where bombardment took place nothing fell but a shower of summer rain.

From such a beginning has developed a war with the clouds in which thousands of tons of powder are shot off at menacing clouds in the Alps, Hungary, Germany, Italy and France. Forts have been built. Special guns have been built capable of discharging the air to a height of 3,000 feet. The governments have assisted the vine growers in various ways. Costs of forts do not reach \$100 and yearly expense of a fort is about \$30. They have given absolute protection to the vineyards. The bombardment must, however, be well timed, if after the period of stillness has started the hail may have formed so that it can not be shaken apart.

LEADING STYLES OF TO-DAY

ELAINE ROZE'S IMPRESSIONS OF PARIS STYLES.

The Great Vogue of Silk—Fascinatingness in Lingerie—Hand Worked Blouses.

After a careful study of the models shown in this fashion centre of the world—bright sunny Paris—I have culled the best and most settled features of the leading fashions for you, carefully avoiding the over elaborate and exaggerated styles which one often sees in so-called fashion plates and which, if copied, would make the wearer out enough to grieve all judicious holders.

Paris modistes are excelling all their former efforts and women are so gowning today that it would require but a slight stretch of the imagination to fancy one is looking upon an embodiment of a beauty painted by an old master, for indeed nothing of beauty of other eras escapes the arbiters of fashion of this period.

Another silk season is before us! Another season of this queen of fabrics and the periodical attempts to oust the favorite seem powerless to stem its popularity. A glance at the shop windows of the Rue de la Paix and at the fashionable women of Paris tells the story—Paris says silks! And the fact that a large proportion of the

model gowns purchased by American modistes in Paris are of silk would alone confirm the Paris decree, but a novel enterprise on the part of an astute American firm (let the Eagle scream!) to open a shop in New York where silks only will be shown, with the motto of the shop "Nothing but Silks," proves that the appreciation of Milladi Americana for the soft and exquisite product of the silk loom is undiminished.

Some of the most beautiful silks, which fully revealed the supple airiness of old time rich textures, were shown me in process of weaving in that City of Silks, Lyons. These were being made to the order of the "Nothing but Silks" shop which I understand is to open this Autumn in the famous "Flatiron" neighborhood.

One would think the height of fastidiousness had been reached in lingerie, but with the craze for the hand-worked blouses, the majority being in English eyelet embroidery, the corset cover has become an important and expensive item in the dainty woman's outfit, and with the foundation of a perfectly built corset, such as the C-B a la Spirite, a bonbonned and belaced corset cover, a dainty and picturesque kimono and a coquettishly frilled and and furrowed silk petticoat, nillady en negligee presents a most charming picture of sweet dainty womanhood.
